TB01 Touchless Button

WWW.MAG.COM.MY

Description

MAG TB01 touchless button is designed to be simple and compact for practical usage without need to touch or press the exit button. The built-in advanced technology sensor can detect an object (for example hand wave) to trigger door open. This is particularly useful in the application where sanitary conditions must meet, like hospitals, cleanrooms, and food processing factories. It can be easily mounted on wall surface for door access and also use together with any Face Recognition reader as touchless solution.

Technical Parameters

WORKING VOLTAGE	DC 12V
WORKING CURRENT	≦ 20mA
FUNCTION	Touchless sensor
TRIGGER TIME	Less than 1 sec
LED LIGHT INDICATOR	Standby : Green Activate : Blue
DETECTION RANGE	10 - 15cm
RELAY OUTPUT	NO/ COM/ NC
HUMIDITY	20 - 70%
OPERATING TEMPERATURE	- 20°C to 60°C
DIMENSION	90 x 90 x 16mm
WEIGHT	80g
HOUSING MATERIAL	Plastic
