ACCESS CONTROL SYSTEM

WWW.MAG.COM.MY

SOYAL intro

SOYAL Technology was established in 1993 as a reputable manufacturer of access control systems in Taiwan. SOYAL design philosophy offers versatile usage beyond access security. It can be integrated into automation and industrial application. SOYAL system offers unique cascading architecture that allows scaling up of security system level without replacing existing equipment as the customer grows.

SOYAL has been a MAG technology partner for more than 15 years in Malaysia. MAG offers strong after-sales and warranty services to support the SOYAL hardware product line. MAG developed MagEtegra ME-ACS access control software and ME-VMS visitor management software to bring SOYAL equipment to the next level.

SOYAL's highly stable good quality hardware with MagEtegra's innovative user-friendly software is the perfect combination of total security solution that brings you peace of mind.

Content

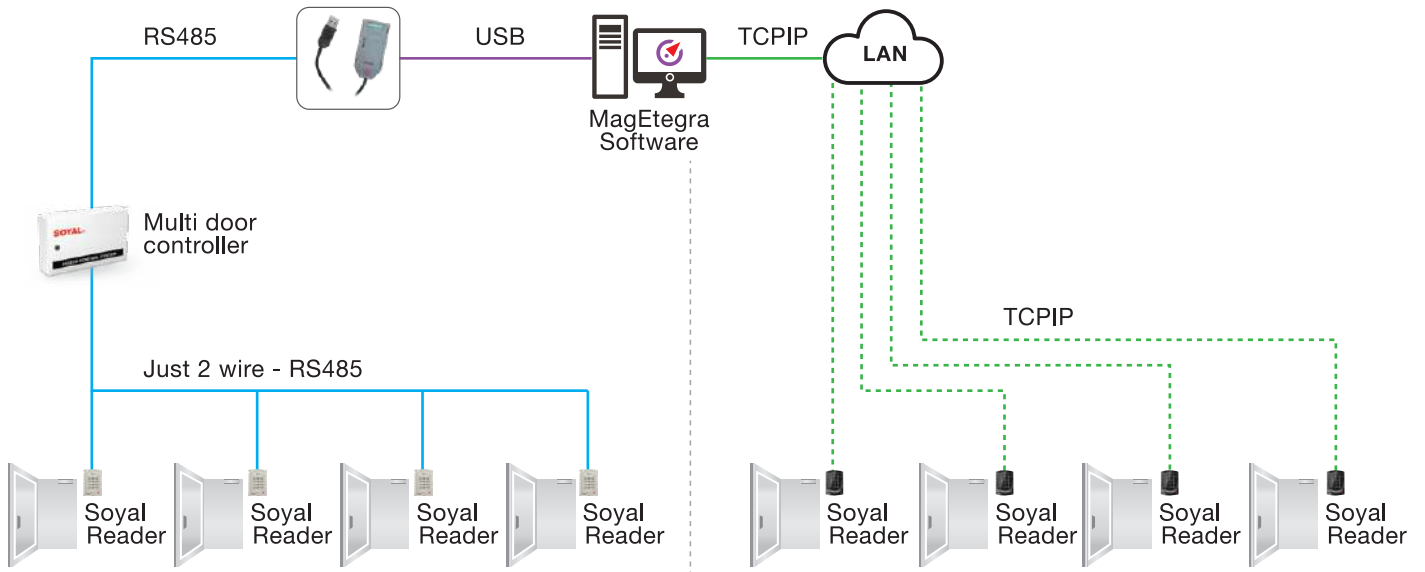

You can feel peace of mind knowing that the safety of your building's user is assured with our total access security and automation solution. By choosing the right gate access control system, it will effectively filter out all "**BAD people**" and only allow "**GOOD people**" to go in. This could help eliminate 90% of the potential security threats in the building. You can easily control who can enter where at what time using card, pin or fingerprint from our simplified software interface. Your business inventory, valuables and confidential asset can be well secured.

7 reasons why you should choose **SOYAL** access control system

- 1 More flexible.
- 2 Easier installation and maintenance.
- 3 More affordable.
- 4 Wider choice of reader.
- 5 Extended functionality with MagEtegra software.
- 6 Extended connectivity with MagEtegra software.
- 7 Faster technical support, warranty and repairing service.

1 More flexible

SOYAL flexible architecture support mixture of RS485 and TCPIP to suit any site condition. **RS485** save wiring cost by allowing multiple readers to be looped using 2 wire only up to 300m-1000m distance. **TCPIP** offer the convenience for future expansion where each reader just have to connect to nearby available network point.

- Save money in current project

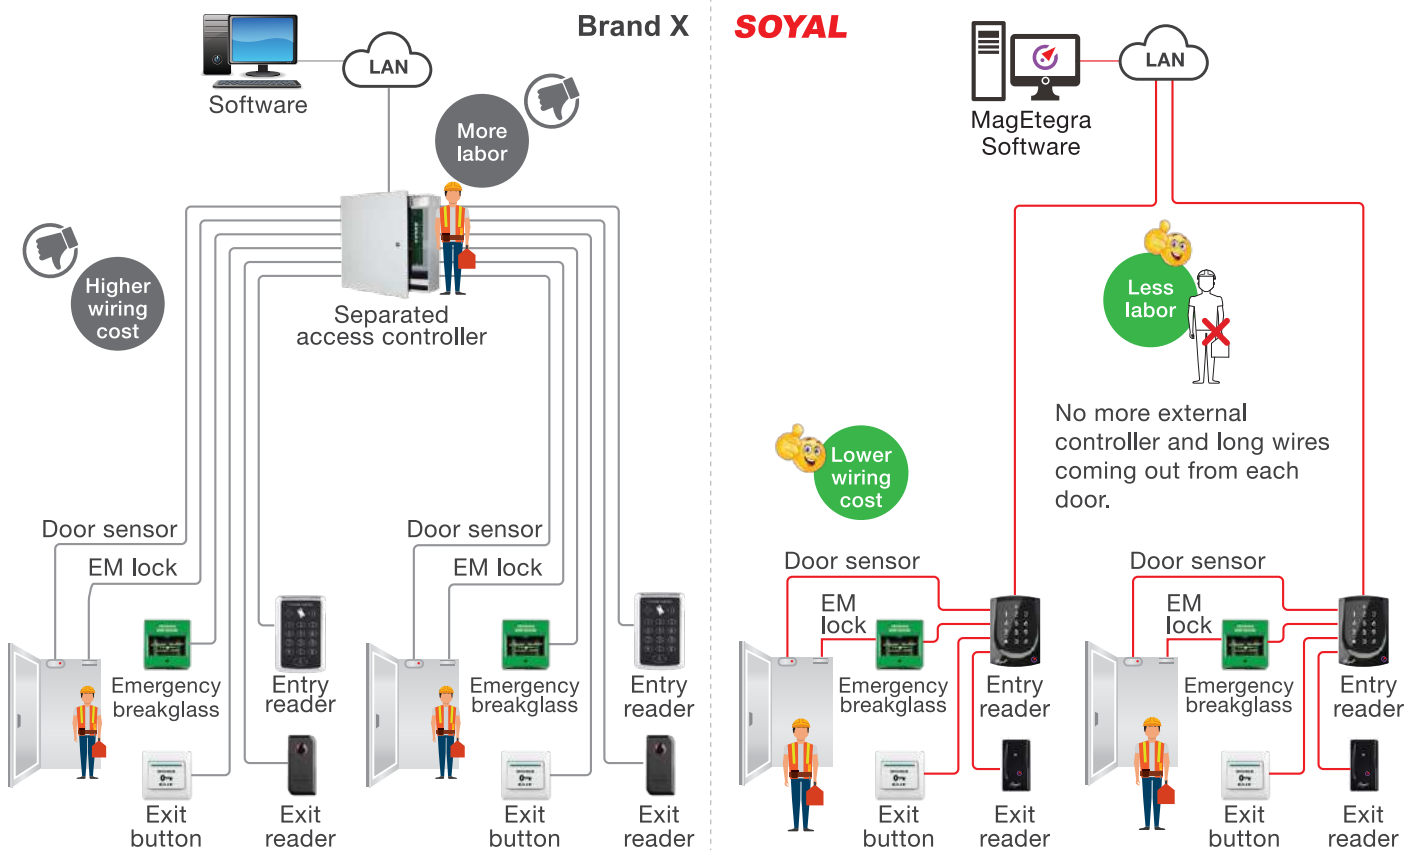

RS485

TCPIP

- Convenient for future expansion

2 Easier installation & maintenance

SOYAL reader has built-in controller to give you 2 in 1 best value. This allows reduced wiring, simplified installation and more convenient for maintenance. Minimum labor cost for installation and servicing. Therefore overall project cost can be lowered and save you more money.

3 More affordable

SOYAL reader with built-in controller helps you save money. You don't have to pay extra money to buy a separate controller and metal box. SOYAL optimized reader design for practical feature/performance to ensure you do not pay extra for unnecessary functions.

Brand X

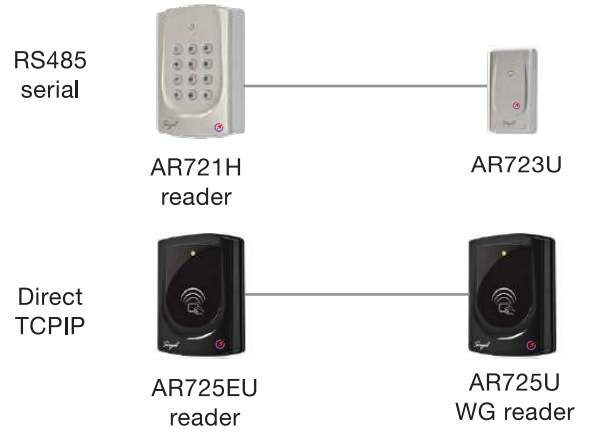

- Unnecessary external controller on every door

VS

SOYAL

- Reader with built-in controller

Brand Y

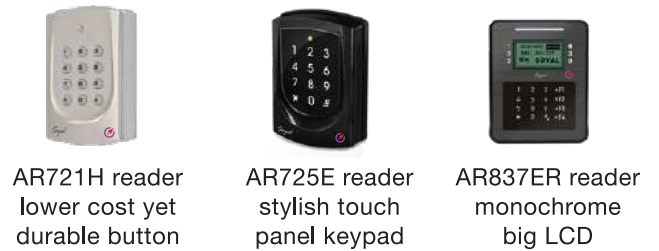

- Unnecessary multicolor high resolution touch screen LCD
- Complicated moulding shape

VS

SOYAL

- Simplified design for practical usage

4 Wider choice of readers

SOYAL offer from low cost standalone to high performance reader under single brand. You can choose from a slim design reader that easily fit into narrow door frame or affordable reader that come with keypad or direct TCP/IP features. Some place you might want to use lower cost reader and some place you might need to use high feature reader. Whatever you need, SOYAL has plenty of readers choice for you to mix and match in accordance to your desired budget.

Easy fit to customer limited budget

Easy fit to site environment

High performance feature yet still very affordable

5 Extended functionality with MagEtegra software

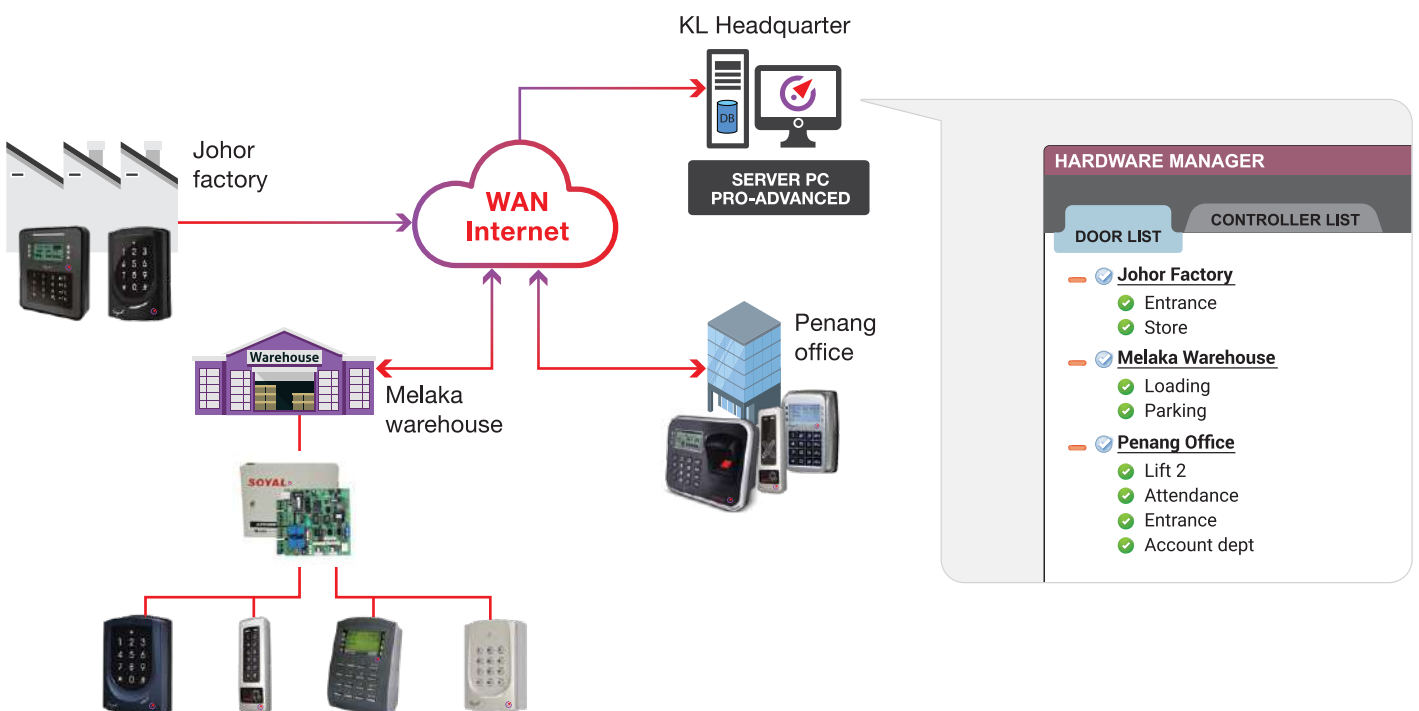

MagEtegra ME-ACS is an advance client / server access control software that is designed for Soyol's card and fingerprint access system. It extends SOYAL functionality to the next level with integrated CCTV surveillance and time attendance functions. MagEtegra is fully loaded with powerful features into a single platform to achieve centralized security, surveillance and attendance management.

6 Extended connectivity with MagEtegra software

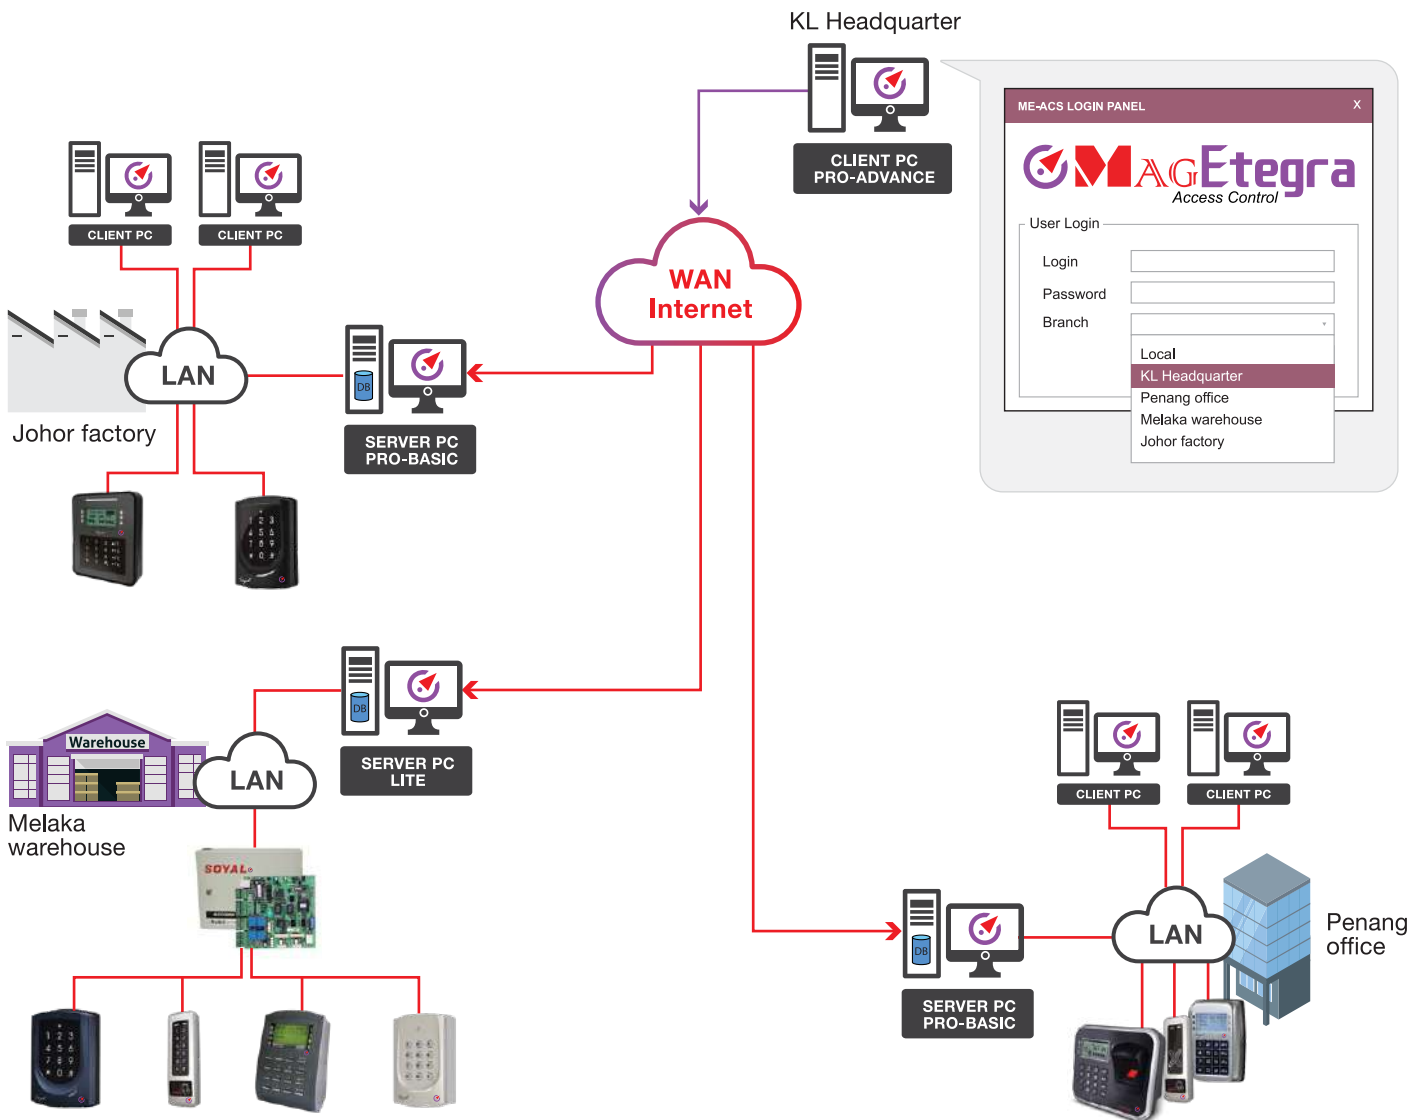

MagEtegra ME-ACS allows multiple operators to simultaneously monitor and control multiple branches over the internet from a centralised location in headquarter. Every operator can be authorized for specific function in the software. Different operator and different sites are connected onto a SINGLE software platform for easier management.

Centralised Architecture

MagEtegra ME-ACS also allows each branch to monitor their own security system. With ME-ACS Pro-Advance version, headquarter can open up each branches individually and manage all branch on single screen simultaneously.

Decentralised Architecture

7 Faster technical support, warranty and repairing service

We have experienced technical support team assisting our authorized dealer to solve your site problem faster. We also offers full spare parts and repairing services locally to ensure your access control systems are up and running in the shortest time possible. Video tutorial is available on our website so that you can still get assistant after our office hours.

SOYAL Multi Door Interface & Signal Converter

Multi door interface

AR716-E18

Soyal 16 Reader Interface

- Maximum RS485 readers: 16
- Maximum users: 15000
- Expiry date setting: Yes
- Memory transaction: 11000

AR716EiO

Soyal I/O Module

- Add on module to expand 8 more digital input port on AR716-E18 for alarm monitoring function in software.

AR716-E16

Soyal 14 Reader Interface

- Maximum RS485 readers: 14
- Maximum user: 64000
- Expiry date setting: Yes
- Memory transaction: 32000

AR716-E02

Soyal 2 Reader Interface

- Maximum readers: 2
- Maximum users: 3000
- Expiry date setting: N/A
- Memory transaction: 1456

Signal converter

AR727i

Soyal TCPIP Networking Module

- TCPIP module for AR716-E18
- Convert RS485 to TCPIP
- Can assign an IP for access by PC via TCPIP network

AR727CM

Soyal Serial Device Network Server

- Converts RS485 to TCPIP (10 Base T) function in software
- Interface Soyal reader to Ethernet

AR321CM

Soyal USB Converter

- Convert RS485 to USB
- Interface Soyal readers to PC

AR321L485-5V/12V

Soyal Interface Converter Module

- Convert TTL to RS485 in lift access system

Others

AR401RO16

Soyal 16 Channel Digital Output Module

- 16 relay interface for lift access system. Each interface can be looped to support multiple of 16 floors

AR_WG_Rep

Soyal Wiegand Repeater

- To extend WG data line

ARRep485

Soyal RS485 Repeater

- To extend the RS485 bus for another 200m

SOYAL wiegand reader, encoder and accessories

WG Card Reader

AR723U

Soyal Wiegand Reader

- Reading range: 8 cm
- Minimalist without keypad
- EM or Mifare

AR721K

Soyal Wiegand keypad reader

- Reading range: 15 cm
- Keypad for PIN and setting
- EM or Mifare

AR331U

Soyal Wiegand Reader

- Reading range: 3 – 7 (cm)
- Stylish SilverBlack series
- EM or Mifare

AR725U

Soyal Wiegand Reader

- Reading range: 3 – 7 (cm)
- Illuminated icon for card status
- EM or Mifare

AR101U

Ultra-mini dual-band RS485/WG Proximity Reader

- Flexible to integrate with SOYAL or other access control system
- From the DIP switch change mode in between slave RS-485 reader or a slave WG reader

QR Code Reader

AR888ULS

SOYAL QR Code Reader

- Support QR code 2D barcode
- Scanning distance 50-200mm status
- Support dual frequency EM and Mifare
- Data output: Wg26, Wg34
- LED indicator: Green, red

DESFire Card Encoder

AR837P

DESFire Card Encoder

- Illuminated Keypad Design for more visual operation
- Weatherproof Design for outdoor use RS-485

Proximity Card

Printed WG number on card

CDS18 - EM 125Khz Card

- 1.8mm card

CDS084SH - EM 125Khz Card

- 0.84mm thin card

CDM084SH - Mifare 13.56Mhz Card

- 0.84mm thin card

AR-TAGCIDW50F-DF28 Desfire

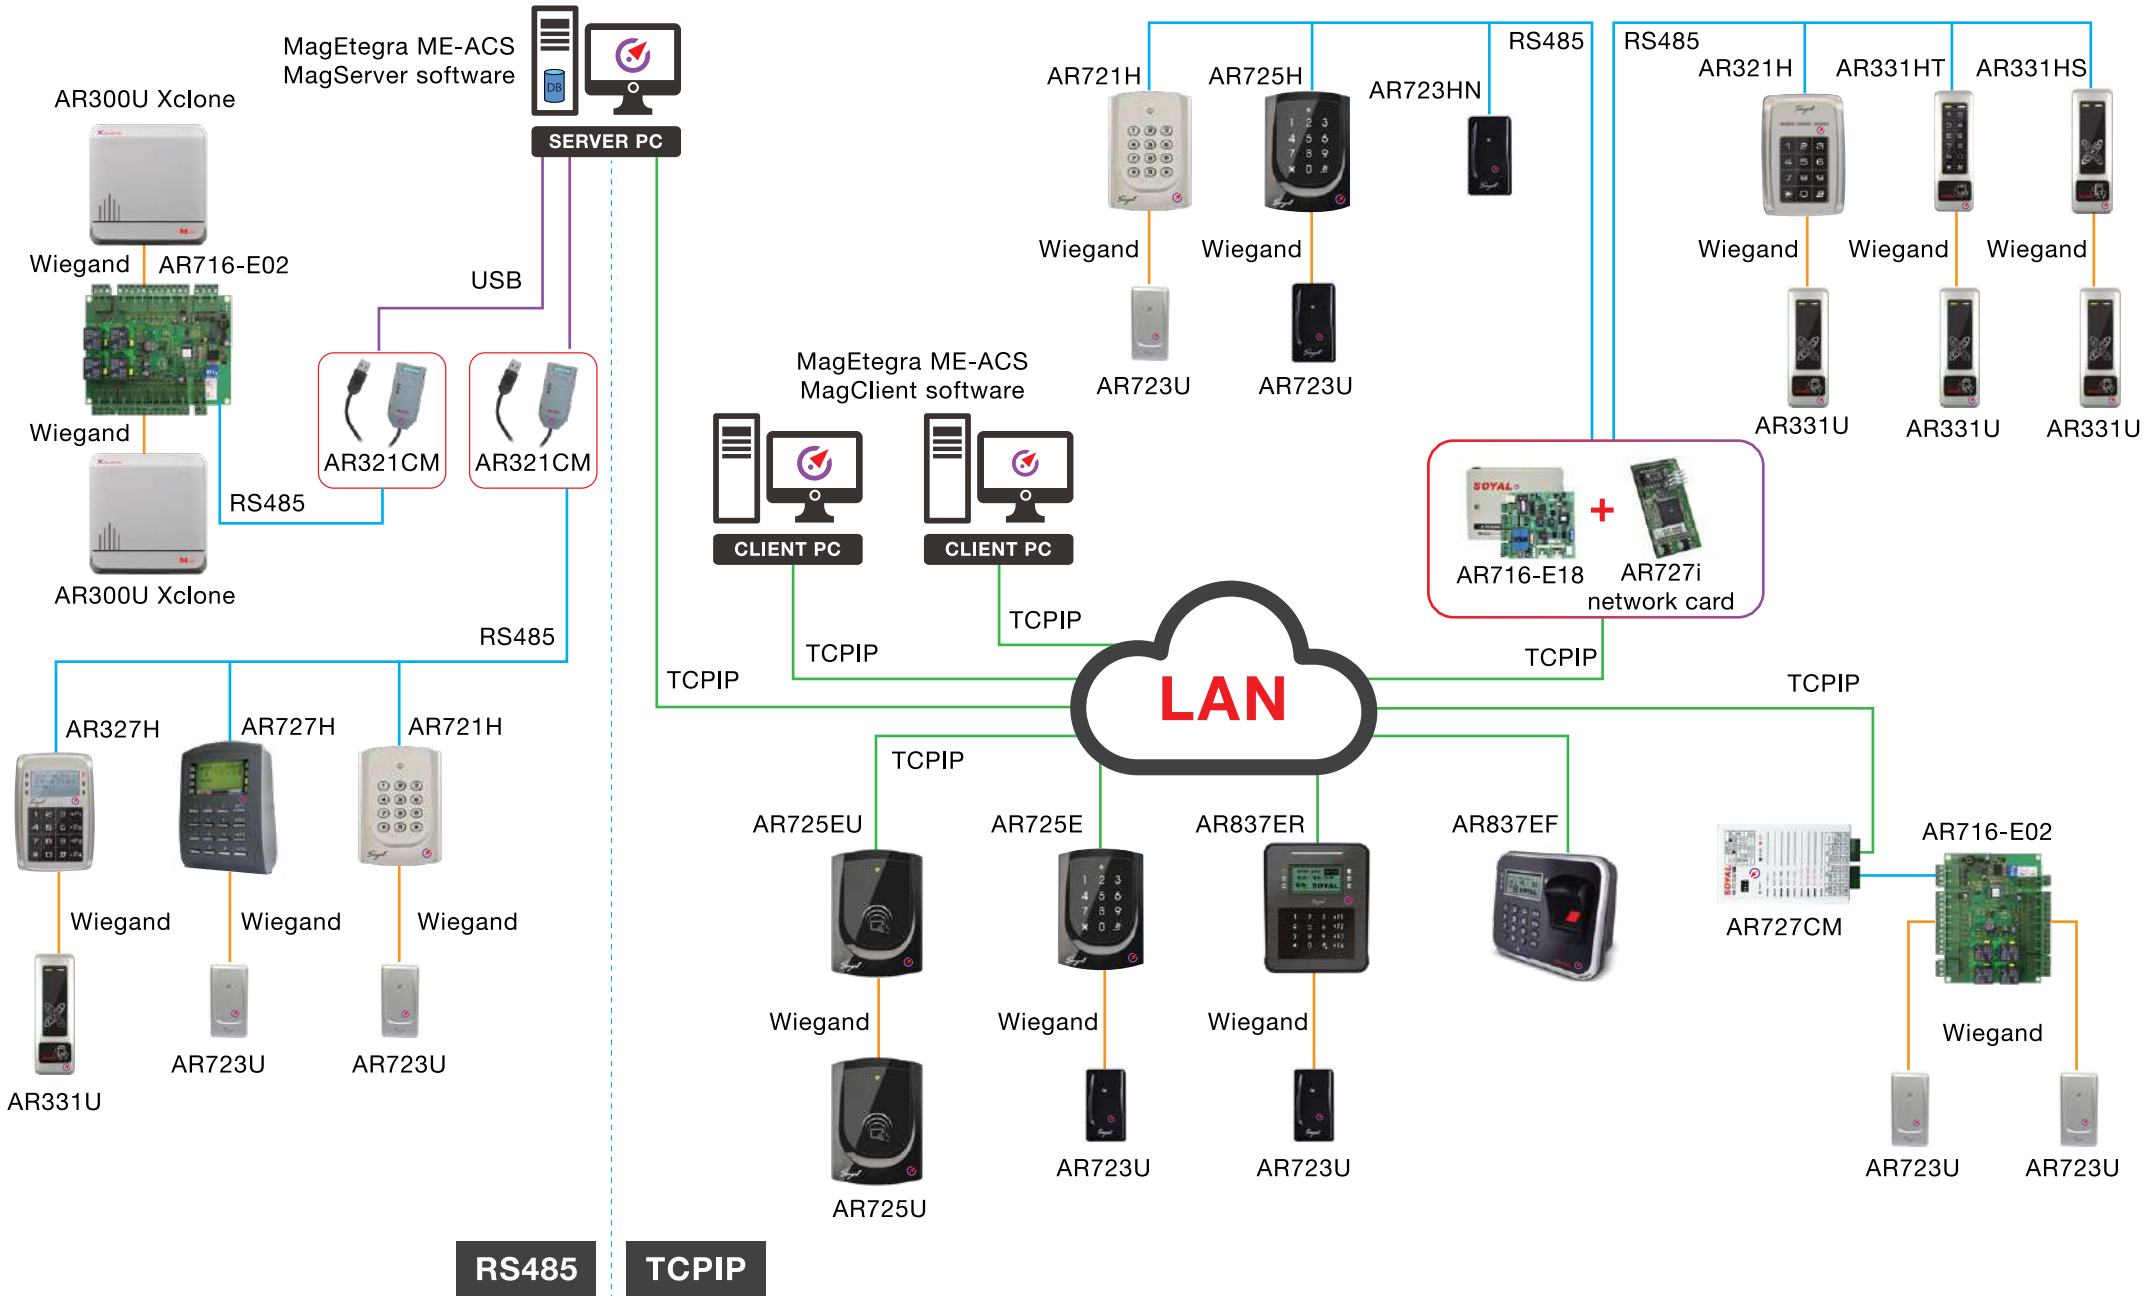

- 0.84mm thin card

Keychain Tag

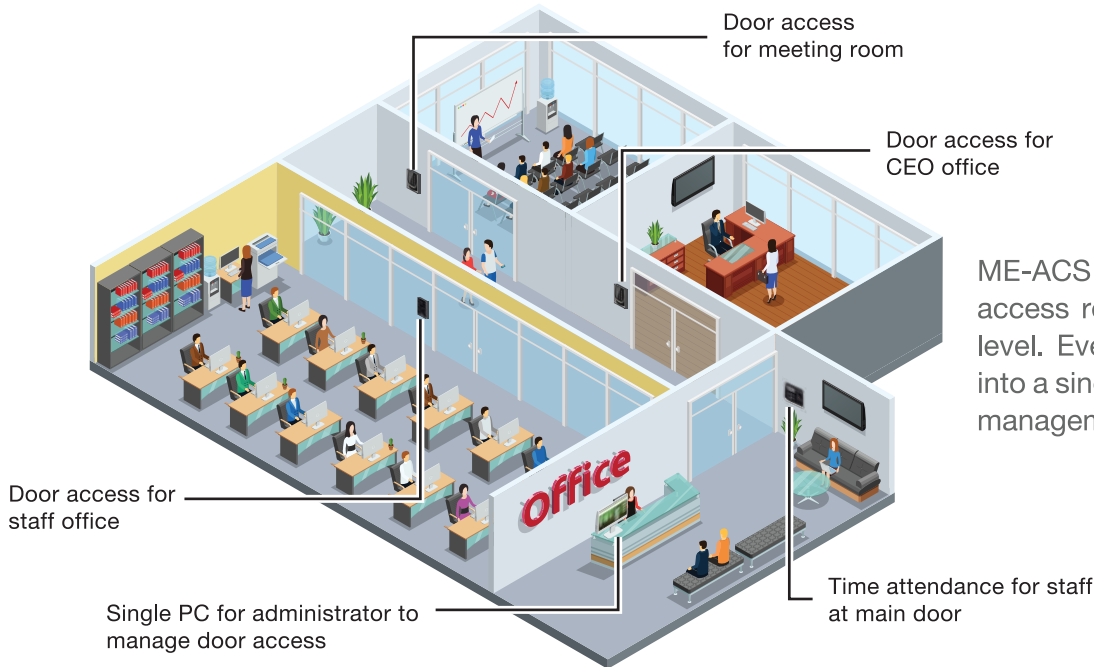

- EM / Mifare
- Read / Write
- Printed serial number

SOYAL Hardware & Software Architecture

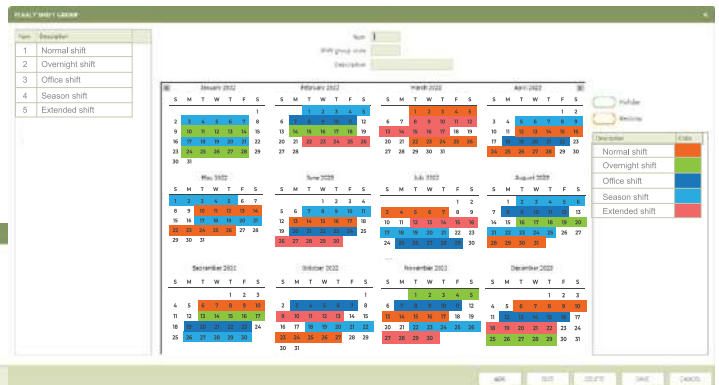

Simple office door access solution

SOYAL offer low budget door access system to cater the need of small and mid-size office that requires basic access security with time attendance function. You can easily manage who can enter where at what time with MagEtegra ME-ACS Lite (free) and Standard version access security software.

MAG Etegra

There are 4 type of attendance shift (weekly, flexible, free and yearly) to cater different working pattern of every staff in your organization. Extensive attendance report can help you improve punctuality and productivity of all staff.

Integrated building security solution

SOYAL access control system works hand in hand with MAG barrier gate, pedestrian gate, long range readers, CCTV and MagEtegra software to give you total solution from a single supplier. We save you the trouble to deal with multiple vendors for consultation, pricing, sourcing, delivery and training.

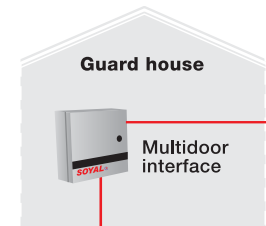

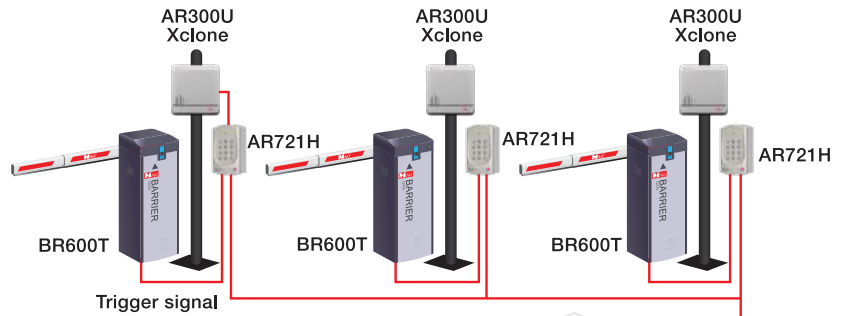

Since everything is purchased through our authorized dealer as a total solution, you do not need to worry about any compatibility issues. Our dealer save you all the hassle of calling multiple suppliers to resolve problem at site. You are able to get full technical support, documentation, warranty and repairing service from single contact point.
